Wheat - WH12

Brentwood - BR13

Cashew - CA14

## WOOD FINISHES and DISTRESSING OPTIONS - cont'd

Clear Coat on Walnut

\*Walnut is available with a Clear Coat Finish only.

## WOOD DISTRESSING

**Natural Distressing** highlights the natural characteristics of the wood with no other distressing added. Worm holes and the associated mineral streaks in our maple tops are considered part of this - as is evident in the image at top.

**Hand Planed** wood is, as the name suggests, planed by hand to create undulations in the surface of the wood. The result is an authentic, worn look.

Please note that wood, as a natural product, has variations in both color and pattern that occur from top to top and even within single pieces of wood. On top of this, colors shown in these images might vary slightly from actual finishes due to the color balance of individual displays.
